### **The Superstar Interview Guide by James Malervy is the Preferred Job Interview Resource Among Hiring Managers**

Lancaster, PA, August 25, 2009: Jarret Lord, District Sales Manager for Staples Business Advantage, states “James Malervy hit the nail on the head with this one. As an active recruiter of new untapped talent in the sales industry, I feel that I pass over a ton of talent that could very well be the next big thing within my company, all because of their interviewing techniques or lack thereof. If most interviewees did their research to this extent I think my job would be that much easier or that much harder depending on how many people read the book and actually applied this information. Think of this as Interviewing for Dummies but with real up to date and practical information.”

If you want to provide the best job interview answers for interview questions and get the job you deserve, then the Superstar Interview Guide is your best bet! You can find the Superstar Interview Guide at [www.InstantJobInterviewTools.com](http://www.InstantJobInterviewTools.com).
